About European Board and College of Obstetrics and Gynecology (EBCOG)

"EBCOG is the Board and College of the Section of Gynaecology and Obstetrics of the Union Européenne des Médecins Spécialistes (UEMS), representing 37 European national societies in Obstetrics and Gynaecology.

The aim of EBCOG is to improve the health of women, as well as unborn and newborn babies, by promoting the highest possible standards of care. EBCOG's core activities focus on education and training, working collaboratively with subspecialties, special interest societies, trainees, and European interest groups to achieve these goals. EBCOG also works closely with the European trainees' organization, ENTOG, to offer fellowships together annually."

Emirates Institute of Postgraduate Medical Sciences & KnowledgeBridge International's objectives of launching courses with EBCOG

- **Objective:** To address skill development gaps across various domains, including medical, surgical, and self-directed learning.
- **Threefold Goal:** Define which skills should be taught to professionals and postgraduate medical students and establish the best instructional methods, and identify the educational resources needed for clinical and surgical skill development.
- **Skill Classification:** Skills will be categorized into assessment and diagnostic skills, procedural knowledge and manual dexterity, and technical and therapeutic skills.
- **Affiliated Facilities:** Professionals and postgraduate medical students will participate in a five-day course focused on both clinical and surgical skills, with training on essential skills in professional settings equipped with audio, video and equipment on specific procedures throughout.
- **Collaborations and Certification:** Universities, societies, and medical organizations will be invited to send their students and professionals to affiliate skill centers to benefit from these facilities. Upon completing the clinical and surgical skills course, participants will undergo an assessment to qualify for EBCOG certification and DHA accreditation.

Diploma Leads and Faculty

Dr. Hélder Ferreira (Lead)

Head Minimally Invasive Gynaecologic Surgery Unit at Centro Hospitalar Universitário de Santo António in Porto, Portugal.
Member of the European Society for Gynaecological Endoscopy (ESGE),
Chairman of the Young Endoscopists Platform (YEP) and as a member of the ESGE Executive Board.

Dr. István Argay

Chief Mentor of the Diploma Centre and Course Director at the European Academy of Gynecological Surgery (EAGS) in Leuven, Belgium.

at Emirates Hospital L.L.C in Jumeirah, Dubai and
Emirates Speciality Hospital Fz-Llc in Dubai Healthcare City, Dubai.

Format and Duration of the Diploma's

- Diploma will be for 5 days, 9 hours every day, followed by a assessment on day 6.
- Diploma to have 40 high impact lectures with hands on training.
- Diploma to have local and international faculty.
- Diploma to have 50-60 enrolments.
- Diploma will be conducted three times in a year.

EBCOG Diploma in Gynaecology Endoscopy - Pioneering Minimally Invasive Techniques for Gynaecological Surgery

Program Overview:

Embark on a comprehensive five-day journey into the world of Gynaecology Endoscopy with our EBCOG Diploma. Designed for gynaecologists aiming to master laparoscopic and hysteroscopic procedures, this intensive program combines theoretical learning with hands-on training, led by distinguished experts in the field.

Curriculum Details:

Introduction to Gynaecology Endoscopy

- **Core Skills and Techniques:** Introduction to Gynae Laparoscopy, Instrumentation and Equipment Overview, Principles of Laparoscopic Surgery, Insufflation and Trocar Placement Techniques, Laparoscopic Abdominal, and Pelvic Anatomy
- **Operational Foundations:** Patient Selection and Assessment for Surgery, Operating Room Setup, Instrument Sterilisation, and Cleaning
- **Hysteroscopy Focus:** From Basic-to-Advanced Techniques, Diagnostic and Operative Procedures, Managing Complications, and Postoperative Care

Operative Laparoscopy for Benign Conditions

- **Surgical Techniques and Patient Care:** Ovarian Cystectomy and Myomectomy Techniques, Total Laparoscopic Hysterectomy and Laparoscopic Assisted Vaginal Hysterectomy, Laparoscopic Management of Tubal Ectopic Pregnancies, and Fertility Preserving Surgery
- **Practical Skills Development:** Hands-on Training with Endo Trainer, Techniques for Tissue Extraction and Closure

Advanced Operative Techniques

- **Complex Surgical Procedures:** Lymphadenectomy for Gynaecological Malignancies, Nerve-Sparing Techniques in Endometriosis Surgery, Laparoscopic Sacrocolpopexy for Pelvic Organ Prolapse, and Surgical Correction of Müllerian Anomalies
- **Advanced Simulation Training:** Skill Development in Tissue Dissection, Suturing, and Knot Tying

Managing Complications in Laparoscopic Surgery

- **Intraoperative Challenges:** Recognition and Management of Vascular, Bowel, and Bladder Injuries, Techniques for Hemostasis and Vessel Repair, Role of Intraoperative Cystoscopy, Conversion to Open Surgery

From Classroom to Real Cases

- **Case Presentations and Discussions**
- **Real-Life Case Scenarios and Expert Panel Discussions**

Why Train with Us

- **Expert-Led Instruction:** Gain insights and training from leading specialists in gynaecology endoscopy
- **Cutting-Edge Facilities:** Practice with state-of-the-art equipment in a simulated environment
- **Career Advancement:** Enhance your skills and qualifications in one of the fastest-growing areas of gynaecology

Diploma Completion Certificate

Your Pathway to Making a Difference

Join us to not only advance your career through skill development but also to contribute to vital improvements in patient outcomes with comprehensive training and support from our dedicated and popular International and EBCOG faculty. You'll be ready to tackle the challenges and embrace the opportunities for the betterment of outcomes in Gynaecology Endoscopy

ENROLL NOW

Equips you with expert-level skills, knowledge and also integrates you into a network of professionals who are at the forefront of improving maternal and fetal health outcomes around the world. This format ensures that the material is not only informative but also engaging, helping prospective professionals and postgraduates quickly grasp the depth and breadth of the program offered
